

## السيرة الذاتية

الاسم:- سناء هتور عواد

الشهادة:- دكتوراه الجامعة:- بغداد الاختصاص:- كيمياء البوليمر

البريد الالكتروني:- sanahitur1979@yahoo.com

مجال التدريس:

دراسات اولية:-

1- المرحلة الثالثة \اساسيات الكيمياء الصناعية

2- المرحلة الرابعة \كيمياء النفط

الاهتمامات البحثية:-

بحوث في مجال الصناعات الدوائية

البحوث المنشورة:-

Casein Grafted Maleic anhydride Copolymer and Substituted with Procaine -1

Synthesis of Substituted Gelatine Grafted Maleic Anhydride as Drug Copolymer -2

Gelatin Grafted Methyl Nadic Anhydride and Substitution With Salbutam=l -3

Albumin-Grafted Glycidyl Acrylate with sulfamethazol -4

Ring –opening of poly lactied by cellouse diacetate and substitution with different amino acid and studying release of drug -5

Synthesis and polymerization of crotonic acid –co proflavin and substituted with different anhydride -6

substituted of gelatin co methyl nadic anhydride with ampicilline and -7  
studying its controlled release

براءات الاختراع

1 - قيد الفحص في الجهاز المركزي للتقييس والسيطرة النوعية

Name :-sana Hitur Awad

Educational qualification:- PhD.

University:-baghdad specialty:- polymer chemistry

E-mail:-sanahitur1979@gmail .com

Under graduate :-

1- Essential industrial chemistry - 1

2-petro chemistry

Research interests:-

Research in the pharmaceutical industrial

Publication:-

Casein Grafted Maleic anhydride Copolymer and Substituted with -1  
Procaine

Synthesis of Substituted Gelatine Grafted Maleic Anhydride as Drug  
Copolymer -2

Gelatin Grafted Methyl Nadic Anhydride and Substitution With  
Salbutam=l -3

Albumin-Grafted Glycidyl Acrylate with sulfamethazol -4

Ring –opening of poly lactied by cellouse diacetate and substitution -5  
with different amino acid and studying release of drug

Synthesis and polymerization of crotonic acid –co proflavin and -6  
substituted with different anhydride
